

HAUKE DAMEROW
BACHELOR OF SCIENCE (BSC)
PHYSICS

EXAMINATION CERTIFICATE

English translation of the original German document

Mr. Hauke Damerow, born on 19 January 2000 in Bremen, successfully passed the bachelor's examination in Physics on 12 August 2022.

The following grades were achieved in the Bachelor's exam, in line with the subject-specific provisions of 6 March 2013 for Physics at Universität Hamburg:

Introductory physics

Orientation unit	pass	(b)
Physics I (Mechanics and thermodynamics)	satisfactory	(2,7)
Physics II (Electrodynamics and optics)	sufficient	(3,7)
Physics III (Quantum physics and statistical physics)	good	(2,3)
Solid-state physics (Physics IV)	good	(2,0)
Nuclear and particle physics (Physics V)	excellent	(1,3)
Atoms, molecules and laser physics (Physics VI)	excellent	(1,0)
Theoretical mechanics and electrodynamics (Theoretical physics I)	good	(2,3)
Quantum mechanics I (Theoretical physics II)	satisfactory	(2,7)
Statistics and thermodynamics (Theoretical physics III)	good	(2,3)
Advanced laboratory course	excellent	(1,3)
Physics laboratory I for science students	pass	(b)
Physics laboratory II for science students	pass	(b)
Proseminar 01 - experimental physics	excellent	(1,0)
Proseminar 21 - theoretical physics	excellent	(1,0)

Introductory mathematics

Mathematics I	sufficient	(3,7)
Mathematics II	satisfactory	(2,7)
Mathematics III	satisfactory	(2,7)
Mathematics IV	satisfactory	(3,3)

Complementary subject

Astronomy and astrophysics I	excellent	(1,3)
Astronomy and astrophysics II	excellent	(1,0)

General professional skills

Scientific computation	pass	(b)
------------------------	------	-----

Final oral exams

Oral examination in experimental physics	excellent	(1,0)
Oral examination in theoretical physics	excellent	(1,0)

Final Bachelor Module

Bachelor thesis	satisfactory	(2,7)
Investigation of the structure of ultrasmall copper nitride nanoparticles using x-ray PDF analysis (in original language)		

Final GPA

good (1,89)

Hamburg, 18 January 2023

Signature of the Examination Office

ECTS Grade Distribution Table Overall Grade

Department/degree	excellent	good	satisfactory	sufficient
Department of Physics/Bachelor	25,33%/76/25,33%	66,67%/200/92,00%	8,00%/24/100,00%	0,00%/0/100,00%

As a rule, there is a minimum of 50 graduates per cohort; if applicable, a cohort with fewer graduates is indicated. A cohort or reference group is comprised of three academic years. The overall grades for the department-degree combination that are used for official statistics form the basis for the designation of a percentile ranking. The percentage, the absolute value, and the cumulative frequency are indicated.
