

Hauke Damerow

Physicist (M.Sc.) · Photonics, Atmospheric & Climate Physics

Hochstrasse 7

22047 Hamburg

hauke.damerow@uni-hamburg.de

PROFESSIONAL SUMMARY

Motivated PhD student in Physics with a strong academic background and practical experience in experimental and theoretical physics. Specialized in photonics and atmospheric and climate physics. Contributed to the development of the radiative transfer model ARTS, with extensive use of Python for modeling complex physical systems. I enjoy working collaboratively in international, interdisciplinary environments and am eager to apply my analytical skills, knowledge and motivation in physics to this PhD project.

EDUCATION

Oct 2022 – Oct 2025	M.Sc. in Physics University of Hamburg, Germany Final GPA: 1.44 – excellent (German grade system)
2023 – 2024 Erasmus semester	M.Sc. in Physics (Erasmus Semester) University of Strasbourg, France
Oct 2018 – Aug 2022	B.Sc. in Physics University of Hamburg, Germany Final GPA: 1.89 (German grade system)
June 2018	Abitur Ratsgymnasium Rotenburg (Wümme), Germany Final GPA: 1.2 (German grade system)

PROFESSIONAL EXPERIENCE

2024-2025 University of Hamburg	Master's Thesis <i>Working title:</i> Fast absorption parameterization and radiative flux computation with the radiative transfer model ARTS <i>Supervisors:</i> Prof. Dr. Stefan A. Buehler (Head of Climate, Radiation and Remote Sensing Group) and Prof. Dr. Peter Hauschildt (University of Hamburg Observatory)
2025 Bad Honnef, Germany	DPG Summer School "A New Era in Exoplanet Atmosphere Observation and Characterisation" – German Physical Society - Lectures on planetary atmospheres and remote sensing - Presented my master's thesis topic in a poster session - Hands-on programming sessions and a scientific writing workshop
June 2024 Kristineberg, Sweden	Open ARTS Science Workshop University of Gothenburg - Participated in a workshop on the Atmospheric Radiative Transfer Simulator (ARTS) - Attended presentations, hands-on sessions and poster discussions on remote sensing and radiative transfer simulations - Networked with international researchers in climate and atmospheric physics

VOLUNTEERING EXPERIENCE

Oct 2018 – July 2023 Hamburg, Germany	Coordinator of the Hamburg organization team Europa Macht Schule Intercultural education program in which international students carry out projects in German schools.
Since June 2023	Member DPG – German Physical Society

SKILLS

Technical Skills	• Python (advanced): modeling, data analysis, visualization – used extensively in Bachelor's and Master's theses and computational physics coursework • Java (basic): university software development course • Generative AI tools (e.g. ChatGPT, Claude, Grammarly), • MS Office, • LaTeX • Analytical and mathematical problem-solving • Driver's license class B (EU)
Soft Skills	• Scientific communication and presentations • Interdisciplinary and international teamwork • Curious and eager to learn and explore new challenges • High responsibility and reliability
Languages	German – Native / Proficient (C2) English – Advanced (C1) French – Advanced (B2)
